

International Standard IEC 60958-3,
Digital audio interface — Part 3:
Consumer applications, First edition,
December 1999, International
Electrotechnical Commission, Geneva,
Switzerland, ISBN 2-8318-5055-X (in French
and English).

The International Standard IEC 60958-3 reference is a bilingual publication in both French and English, with the French version appearing on the even-numbered pages 2, 4, 6, . . . 88 and the English version appearing on the odd-numbered pages 3, 5, 7, . . . 89. For the Examiner's convenience, the attached copy of the International Standard IEC 60958-3 reference has the odd-numbered pages 3, 5, 7, . . . 89 on which the English version appears grouped together at the beginning of the reference, followed by the even-numbered pages 2, 4, 6, . . . 88 on which the French version appears.

A copy of the International Standard IEC 60958-3 reference was supposed to be attached to the Information Disclosure Statement of April 29, 2002. However, due to an inadvertent error, what was actually attached to the Information Disclosure Statement of April 29, 2002, was a combination of a copy of International Standard IEC 60985-1,
Digital audio interface — Part 1: General, First Edition,
December 1999, International Electrotechnical Commission, Geneva, Switzerland, ISBN 2-8318-5057-6 (in French and English), and a copy of the even-numbered pages 2, 4, 6, . . . 88 of the International Standard IEC 60958-3 reference on which the French version of this reference appears.
